MAP OF FARM

Draw in the outline of the farm or farms.

Locate the roads, buildings, fences, woods, and any other fixed points.

Draw in the crop boundaries as land is used in the present crop year.

Letter the crop fields *A*, *B*, etc., and transfer to next page for crop record.

CROPS PROCESSED FOR FAMILY FOOD CONSUMPTION

Enter below the date when any wheat or corn produced on your farm was ground for family food consumption and the quantity so used, whether processed at home or elsewhere. Processing for such use is exempt from tax.

[illegible]**USE OF LAND CONTRACTED OR RENTED TO THE AGR. ADJ. ADM.**

Enter below the acreage and use of the land kept out of the production of basic commodities.

UNITED STATES DEPARTMENT OF AGRICULTURE
OFFICE OF COOPERATIVE EXTENSION WORK
IN COOPERATION WITH
AGRICULTURAL ADJUSTMENT ADMINISTRATION

This book is intended to provide a convenient form in which to record, from time to time during the year, the information on annual production necessary for the filling out of production control-contracts and the proving of compliance therewith. It was prepared in a very simplified form specifically for the use of those farmers not already keeping some form of adequate record on the farm business. Those desiring a more complete book should avail themselves of the forms prepared by the State Extension Services.

Each farmer contracting with the Agricultural Adjustment Administration for production control of basic commodities such as cotton, wheat, tobacco, rice, corn-hogs, etc., is required to provide this basic information. Therefore, this record should be carefully and accurately kept.

A tenant farmer using this book should record the total number of crop acres and livestock on the farm unit which he operates, as well as the purchases and sales of all livestock and livestock products under production-control contracts.

Special forms will be provided on which to make all the necessary reports in connection with the fulfillment of contracts. This book is made available to the farmer for his own record, to be used as a basis for such reports.

Administrator of the Agricultural Adjustment Act.
